

About

An aspiring and enterprising person, having a "can - do" attitude, with the ability to build trust and credibility among managers and employees.

Chief Executive of Warsak, Ozone and Wheelz CNG stations. Self motivated and focused to further enhance the existing business setup.

Highly articulate, confident and persuasive team-builder, with an excellent track record of motivated staff to achieve exceptional business performance.

Business Introduction

I have worked in the Energy Sector for more than 15 years which led me to establish Compressed Natural Gas (CNG) filling stations at various locations in Pakistan. CNG has been used as a vehicle fuel for many decades since natural gas is locally available in abundance at low price.

According to International Association for Natural Gas Vehicles (IANGV) statistics, more than seventy countries of the world are using CNG as fuel and Pakistan is ranked at number 3 after Argentina and Brazil.
